

Fine Arts

Associate in Science Degree

This program provides the skills and knowledge required for fine arts students to communicate effectively in a visual and verbal format; to prepare the student to exhibit understanding of creative, conceptual, and perceptual techniques of art making; to provide advance knowledge of fine arts through diverse global and historical perspectives; to utilize the traditional technical skills for creating art; and to prepare students for a career in fine arts. Graduates will be prepared to transfer and enter the fields of art education, curation, studio arts, arts therapy, and arts administration. This program allows students through the SUNY Art Studio transfer pathway.

Total Credit Hours: 64
