

Health Sciences

Associate of Science Degree

The Health Science program provides foundational learning for students who desire entry into any of a number of different health and health-related professions. It is designed for students who want to focus on healthcare careers in fields such as nursing, radiological technology, surgical technology, and biotechnology. The Health Science program is also a transfer program that meets the requirements of the SUNY Health Education Transfer Pathway. Students interested in careers in community health, health education, health counseling, or public health can utilize this pathway as a foundation for transfer to programs leading to these health-related careers.
