

Graphic Communications: Illustration

Associate in Applied Science Degree

This program provides the skills and knowledge required for illustrators to communicate effectively in a visual and verbal format; to use creative methodology to solve visual problems; to provide advance knowledge of illustration through diverse global, cultural, and historical perspectives; to utilize technology effectively to create artwork; and to prepare students for a career as an illustrator. Graduates will be prepared to enter the fields of illustration, character design, comic book publication, and creative direction.
