

Liberal Arts & Sciences: Public Policy

Associate in Science Degree

(f) Program Electives include: SS218 Methods of Research OR PY210 Evaluation, Research & Measurements.

This program prepares students to respond to the changes in government and their communities. It provides the skills to understand public policy making. Students choose electives from a broad range of disciplines in the field of policy making. Students completing this program are prepared to transfer to four-year programs in specialized interest areas, or find employment in state, local, and federal government, non-profit agencies, business, law, or management.
