

Theater Arts

Associate in Science Degree

This program provides the skills and knowledge required for actors, directors, and theatrical designers to communicate effectively in visual and verbal formats; to prepare students to use creative methodology to solve theatrical problems; to provide advanced knowledge of theater arts through diverse global, cultural, and historical perspectives; to research and think critically about the theory and practice of acting and technical theater; and to prepare students for transfer opportunities in theater arts. Graduates will be prepared to transfer and enter the fields of acting, directing, theatrical designing, and playwriting. This program allows students to transfer through the SUNY Theater pathway.
